## INTRODUCTION

---

The Broadcasting Law prescribes the financial activities directed to and designed as a support to the independent operation of the Broadcasting Agency. Consequently, the Agency acquires the funds necessary for its activities from:

- ✧ fees for registration of broadcasters;
- ✧ fees for registration of legal entities that have been granted licence for development and use of distribution systems;
- ✧ fees for licences for the transmission and broadcasting of radio and TV signals;
- ✧ fees for licences for the development and use of distribution systems;
- ✧ a part of broadcasting fee;
- ✧ a part of tax on radio receivers in motor vehicles;
- ✧ a part of income of the company for transmission and broadcasting of radio and TV signals, in compliance with the decision of the Council;
- ✧ other sources in compliance with the Broadcasting Law.

Financial activities are public. In compliance with the Law, the funds acquired by the collection of broadcasting fee and tax on radio receivers are distributed to the national public broadcasting services (75%), Agency's fund for the support of local public broadcasting services (10%), Agency's fund for the support of commercial broadcasting services (10%), and Agency (5%). The Agency Council distributes the funds periodically on the basis of public tender in compliance with separate documents.

The Agency is obliged to present the overall financial activities in the final balance sheet, together with the quarterly and biannual financial results. All accounts of income and expenditure are subject to the annual audit of an independent authorised auditor hired by the Council. The surplus of income over expenditure can be used only for the fulfilment of Agency's legal obligations.

Accounting records and financial reports are kept in compliance with the Accounting and Audit Law of the Montenegro and pursuant to the Decision on Direct Implementation of Accounting Standards. In compliance with the Statute, the Agency prepares the reports, to be considered and adopted by the Agency Council. Wishing to promote the transparency of its operation, the Agency makes this report available to a wide scope of interested parties.

The objective of the financial report for 2008 is to present the business conditions and environment, completed business activities, as well as their effects. The financial report for 2008 is based on the accounting data and accurate accounting documentation and drafted adhering to clearly defined procedures for administrative, accounting and financial activities.

- ❑ Bilateral Seminar of the Radiocommunication Bureau of the International Telecommunication Union (ITU), Geneva, Switzerland (7 – 13 December 2008).

### ***Income of the Agency***

---

Income of the Agency in the reporting period is realised on the basis of monthly fees for licences for transmission and broadcasting of radio and TV signals, a part of broadcasting fee, monthly licence fees for development and use of cable distribution systems (CDS, MMDS, IPTV, DTH), a part of tax on radio receivers, regular interest, as well as other business income.

❖ Income from fees for licences for transmission and broadcasting of radio and TV signals is given according to the invoiced value and recorded monthly regardless of the use of frequency up to the moment of expiry of the licence for transmission and broadcasting of radio and TV signals.

❖ Income from the fee for registration of frequencies is determined according to expenses related to the awarding of licences for the transmission and broadcasting of radio and TV signals, technical inspections, and entry into the Agency’s register. The registration fee is paid to the Agency, without the possibility of reimbursement, when collecting the licence for the transmission and broadcasting of radio and TV signals and amounts to 10% of the annual licence fee and 5% of the annual licence extension fee.

❖ Income from the tax on use of radio receivers in motor vehicles is registered after the collection and accounts for 5% of the total funds paid by the owners of motor vehicles during the registration to the bank account of the Agency.

❖ Income from the broadcasting fee includes the income collected in the reporting period by the Telecom of Montenegro on behalf of the Agency, and it was related only to the arrears based on the collection contract previously signed with this company. As of 1 July 2008, the implementation of a new model of broadcasting fee collection through the Montenegrin Electric Enterprise started, resulting in

much lower income from the broadcasting fee than planned. Income collected on the said basis is registered after the collection and it accounts for 5% of the total collected funds.

❖ Income from the fees for the registration of CDS/MMDS/IPTV/DTH operators is paid, without the possibility of refunding, when awarding the licence. The fee for the registration of CDS operators depends on the number of municipalities for which it is developed, while the fee for the registration of MMDS operators is determined at the level of 5% of the annual fee. The registration fee for IPTV/DTH operators is paid, without the possibility of refunding, when collecting the licence and it amounts to €75,000.

❖ Income from the licence fees for the development and use of CDS/MMDS distribution systems is given according to the invoiced amounts and calculated on the basis of the proposed percentage of income realised on the basis of distribution of radio and TV programmes. The fee for these operators was determined at the beginning of the year in compliance with the Book of Rules on Cable and Wireless Systems for the Distribution of Radio and TV Channels to End Users (“Official Gazette of the Republic of Montenegro”, No. 67/06) at the level of the proposed percentage of annual income realised on the basis of cable distribution of radio and TV channels to end users in the previous calendar year. In this April, the amendments to this Book of Rules were adopted (“Official Gazette of Montenegro”, No. 28/08), decreasing the fee level, mainly for the MMDS operators. Due to a delay in the implementation of the planned systems, the income of CDS operators in 2008 was lower than expected, which resulted in a lower level of fees they were obliged to pay to the Agency in 2008.

❖ Income from the licence fees for the distribution of radio and TV programmes to the end users by means of public fixed telecommunication networks and satellite distribution systems is determined by the Agency for the current year, at the level of 5% of the total annual income of the operators on the basis of provision of these services during the previous calendar year.

❖ Other business proceeds include the income from donations, commissions, processing of tender applications and other documentation. The said income is registered in the period when it took place.

Graph: overview of monthly income and expenditure in 2008

In the reporting period, the Broadcasting Agency mostly adhered to the adopted financial plan, keeping its income higher and expenditure lower than planned. The following tabular overview gives the key business indicators and their comparison with the plan:

January - December 2008

Type of income	Planned	Actual	Index
Income from tax on radio receivers <sup>1</sup>	30,000.00	36,649.04	122.16
Income from broadcasting licence fees <sup>2</sup>	539,023.00	577,036.25	107.05
Income from broadcasting fee S <sup>3</sup>	168,000.00	93,709.85	55.78
Other income <sup>4</sup>	30,000.00	59,759.02	199.20
Income from CDS/MMDS/IPTV/DTH <sup>5</sup>	390,500.00	210,579.20	53.93
Income from default interest	-	10,689.18	-
Income from investment interest	-	22,273.64	-
Income from registration of broadcasters	-	5,068.40	-
Exchange rate difference	-	73.18	-

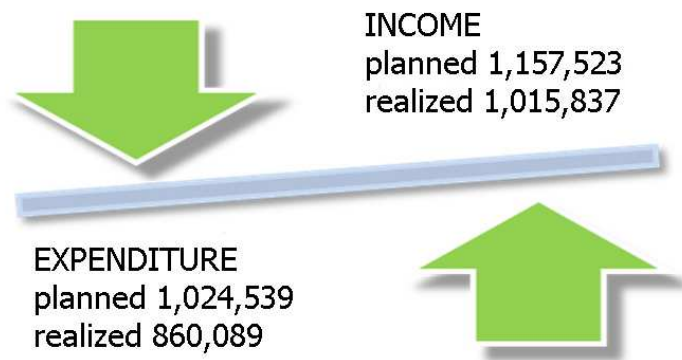

<sup>1</sup> **Income from tax on radio receivers** are higher than planned by 22.2 % due to the increased number of registered vehicles in 2008;

<sup>2</sup> **Income from fees** for licences for transmission and broadcasting of radio and TV signals is higher than planned by 7.0 %, due to the harmonization of the level of fees with the increase in the retail prices in Montenegro;

<sup>3</sup> **Income from broadcasting fee** is 44.2% lower than planned, because a fee collection service was not provided in the first half of 2008, after the expiry of contract with "Telecom of Montenegro" a.d. and before signing a contract with the Montenegrin Electric Enterprise a.d.;

<sup>4</sup> **Other income** mostly include fees for processing of applications to tender and other documentation, commission amounting to 3% of the tax on radio receivers, which goes to the Radio of Montenegro, fines issued to broadcasters, provisions on services of ATDI software, transfers from the deferred income to donated equipment, etc.;

<sup>5</sup> **Income from licence fees for CDS/ MMDS/IPTV/ DTH operators** was 46.1% lower than planned because of changes in the level of fees calculated for the operators in 2008 according to a new calculation method prescribed by the Book of Rule on Cable and Wireless Systems for Distribution of Radio and TV programmes to End Users (Official Gazette of the Republic of Montenegro, No. 67/06 and Official Gazette of Montenegro, No. 28/08);

January - December 2008

Type of expenditure	Planned	Actual	Index
Gross salaries of employees	425,640.00	454,154.57	106.7
Other remunerations	53,220.00	54,783.93	102.9
Gross fees of Council members <sup>6</sup>	40,392.00	50,714.01	125.6
Business trips and membership fees for int.org. <sup>7</sup>	87,200.00	44,745.77	51.3
Materials and services <sup>8</sup>	143,100.00	117,834.42	82.3

Other business expenses <sup>10</sup>	111,400.00	36,152.55	32.5
Humanitarian assistance and sponsorship <sup>11</sup>	-	32,699.40	-
Subsidised interest <sup>12</sup>	50,000.00	7,819.65	15.6

<sup>6</sup> **Gross fees of Council members** were higher than planned because of the harmonization of fees with the increase in the retail prices in Montenegro and hiring more part-time workers because of an increased scope of activities after the introduction of the new broadcasting fee collection method;

<sup>7</sup> **Business trip expenses** include the business trip expenses in the country (transport, hotel expenses and per diems), and business trip expenses abroad (transport, hotel expenses and per diems). The foreseen expenses of the **membership in international organizations** include the fees paid by the Broadcasting Agency for its membership in international institutions ITU, AIB and EPRA. Having a cost-effective approach to the use of funds allocated for this purpose, the expenses for this purpose amounted to €44,745.77, which is 48.70 % less than planned;

<sup>8</sup> **Expenses for materials and services** include expenses for stationeries, advertising material, office supplies, expense account, insurance premiums for the employees, non-production services, commission paid to the Telecom of Montenegro, Montenegrin Electric Enterprise, and payment operations, other taxes and contributions, telephone and postal services, costs for contracted services, and training of employees. The realized expenditure was 17.70% lower than planned because of a cost efficient use of funds in 2008;

<sup>9</sup> **Maintenance of fixed assets** include the costs fixed assets maintenance services, service and maintenance of vehicles, fuel, lubricants, insurance and registration of vehicles. The realized expenditure was 10.00% lower than planned;

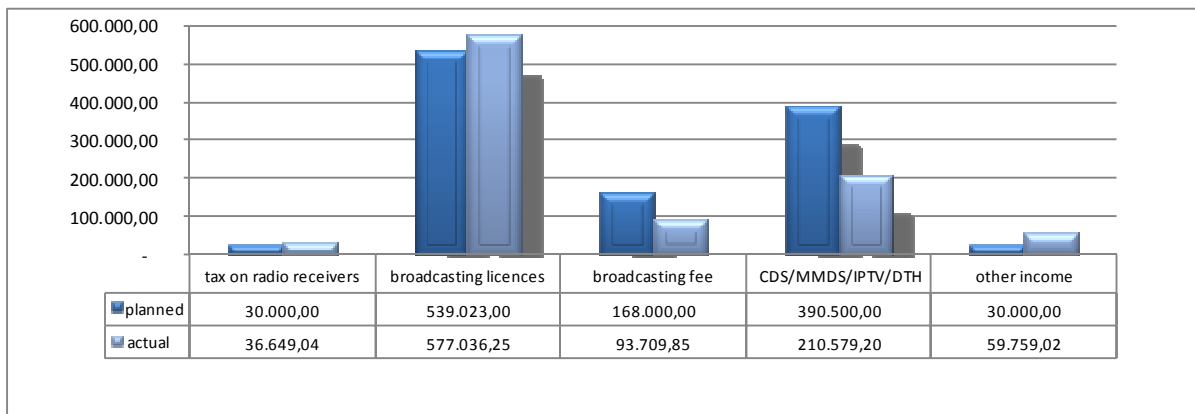

<sup>10</sup> **Other business expenses** include the expenses for advertising, administrative taxes, financial report audit, other non-material expenses, subscriptions to magazines, newspapers and news agencies. Having a cost-effective approach to the use of funds allocated for this purpose, this expense amounted to 36,152.55, which was 67.50 % less than planned;

<sup>11</sup> Funds for **humanitarian assistance – donations and sponsorships** were not foreseen by the plan. The Agency allocated plans for this purpose in accordance with its possibilities (completely justified requests for humanitarian assistance continuously submitted to the Broadcasting Agency);

<sup>12</sup> **Subsidized interest for housing loans** arising from the credit arrangement with the CKB for the housing issues of the employees were lower than planned;

Revolving funds worth €1,953,108 account for 91.5% of the total assets and it is related to the receivables from buyers (12.2%), short-term financial investments (25.66%), cash and cash equivalents (61.8%).

Total receivables transferred from 2007 amounted to €260,897.89, while the total receivables as at 31<sup>st</sup> December 2008 amounted to €243,991.63. Out of that amount €155,949.64 accounts for the receivables from broadcasters, €84,277.43 accounts for the receivables from CDS/MMDS operators, €1,000.00 for the receivables from rental of the translation equipment, €400,00 for the receivables for the advance payments for business trips, while the receivables of the employees amount to €2,029.74. The collection rate for the income from broadcasting licences was 90.9% in the reporting period. Therefore, it may be concluded that the collection rate in the given period was good. The receivables on the basis of advance payment, amounting to €339.82, are related to advance payments made to suppliers. The short-term financial investments amount to €501,104.07, €200,000 of which account for time deposit with Crnogorska komercijalna banka, €300,000 with Prva banka, while the down payment for the Maestro Business cards amounted to €1,104.07.

The total turnover in 2008 amounted to €5,398,246.38 through the bank account, €37,680.02 through the cashier's office, and €17,437.35 through the foreign exchange account.

Total liabilities amounted to €2,133,717. The Agency's capital amounts to €1,658,169, including:

- the capital provided by the Government of Montenegro for the initial funds for the operation of the Agency amounting to €436,165.38,
- taken over from the Republican Secretariat of Information - €64,031.29,
- the Agency's own capital - €63,429.73.
- Undistributed profit amounts to €1,094,543.45, out of which €155,748.43 accounts for the current year.

Total debts of the Agency amounted to €462,801.76, out of which €3,587.66 accounts for liabilities to suppliers, €458,633.68 for liabilities to funds from broadcasting fees and tax on radio receivers in motor vehicles, while €577.77 for the advance payments paid by buyers. Comparing the aforementioned liabilities with the value of the revolving assets of €1,953.108, it may be concluded that the Agency is solvent, and that its liquidity has never been jeopardized.

## Broadcasting fee

The law prescribes that every household and legal person, with the residence/head office on the territory of the Montenegro, have the obligation to pay broadcasting fee where the technical conditions have been provided for the reception of at least one radio or TV channel, and in case they own radio or TV set. The Financial Report of the Broadcasting Agency for 2008 is aimed at providing the access to the entire process of business operation of the Agency. The Report is based on the relevant business indicators in line with the Law on Accounting and Auditing of Montenegro and the Decision on Direct Implementation of Accounting Standards. It has been structured in such a way to provide a complete elaboration of the manner of financing, allocation of funds, and the effects thereof, taking into consideration all circumstances of the Agency's operation.

On the basis of its income and income-related expenses 2008, the Broadcasting Agency had the total revenues of €1,015,837.76, and total expenditure of €860,089.33, with the positive balance of €155,748.43. In the reporting period, the Agency managed to provide efficient operation and realisation of planned objectives of the Agency, by means of the effective spending of public funds, keeping its income higher and expenditure lower than planned. Due to permanent internal control, monthly analyses of income and expenditure and monitoring of business liquidity, the Agency had stable operation in this period. Such a result was achieved due to permanent internal control, monthly analyses of income and expenditure and monitoring of business liquidity.
